# THE PROBLEM

Hi Mark,  
I want a  
website

With  
a photo  
gallery

I want to be  
able to edit every  
single word and  
image in it

My friend told  
me to ask for  
wordpress

Oh and, did  
I mention it? I  
want it by next  
week :)

In three  
different  
languages

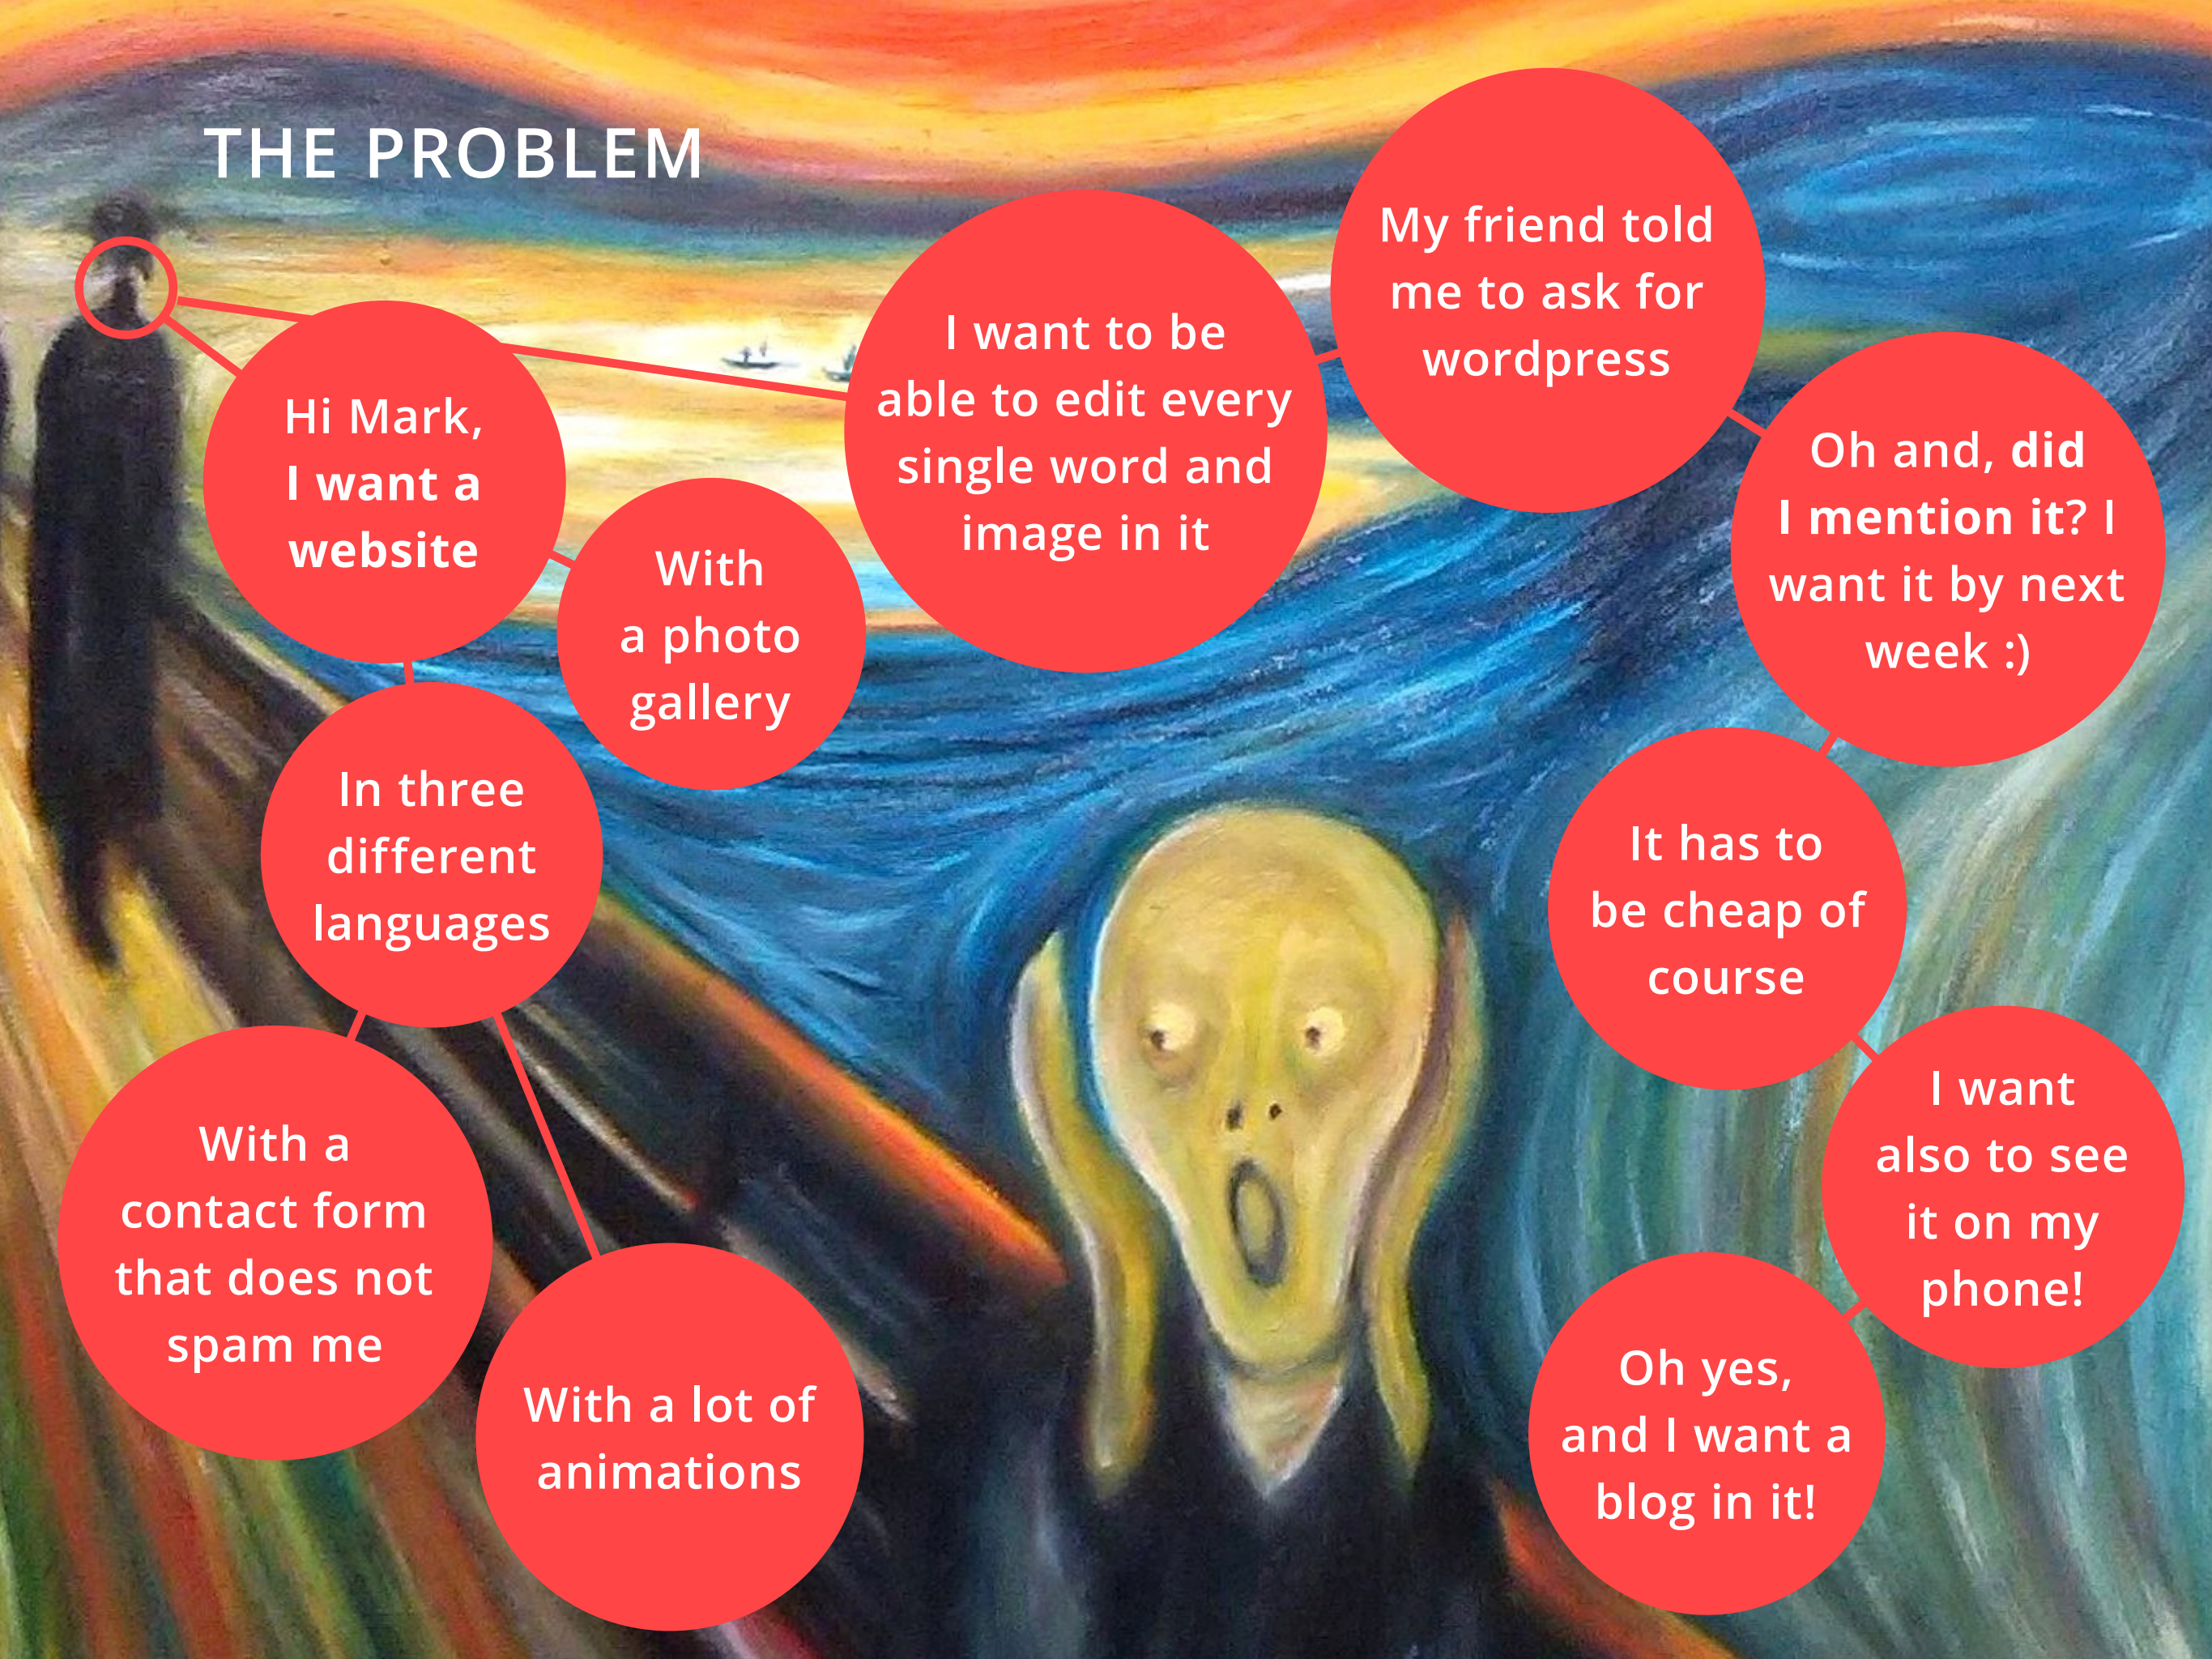

It has to  
be cheap of  
course

With a  
contact form  
that does not  
spam me

I want  
also to see  
it on my  
phone!

With a lot of  
animations

Oh yes,  
and I want a  
blog in it!

# THE SOLUTION

# THE REVOLUTION

# MOOSE

The Content Management System as-a-service  
that **fits to your website**

- No layout or tech constraints  
freely design and code the website you're dreaming!
- No programming skills and no servers
- Usable ad-hoc admin interface
- Simple all-inclusive monthly pricing

# IS THIS EVEN REAL?

Yep, roughly **75% of our customer's websites** could have been developed with **Moose**

---

And we have built a **solid team** that has already worked with several big companies
